

SAPS REGISTER

Current at 30/06/2024

Purpose:

Reviewed: 5/07/2024

This register is maintained and made publicly available in accordance with clause 6.2.3 of the Australian Energy Regulator (AER) Ring-fencing Guideline Electricity Distribution.

The table below lists the required information for each regulated stand-alone power system (SAPS) used by Essential Energy to provide other services.

Local Government Area where SAPS is deployed (post code)	Number of premises served by SAPS	Maximum demand served by SAPS (kW)	Aggregated annual average energy consumption of premises served by SAPS (kWh)	Revenue earned by Essential Energy for providing other services by means of SAPS in current calendar year	Has Essential Energy made a request, in writing, for the supply of the other services by another legal entity?
Mid-Coast - 2423	1	8	1270	\$ 84.21	No
Eurobodalla - 2545	1	15	5452	\$ 312.88	No

Notes:

1. The maximum demand served by SAPS (kW) is the continuous maximum demand rating of the inverter capacity of the SAPS.
2. Aggregated annual average energy consumption is an estimate based on pro-rata calculations for a full year, noting that generation commenced in mid-December 2023.
