

Premise Restoration Verification Certificate

(This form is intended for emergency restoration only)

To the Owner/Tenant

Essential Energy staff have isolated your electricity supply for safety reasons. Before restoring your electricity supply, the entire electrical system must be visual inspected and tested by a licenced electrical contractor.

The electrical contractor must complete the following verification certificate in full before your electricity supply can be restored.

Customers Name

Customers Address

Customer Phone Number

Cause of Event Flood, Fire, Storm, Intermix, _____

Installation Details

Type of Installation (circle) Residential Commercial Industrial Rural Other

Special Conditions (circle) Over 100A High Voltage Hazardous Areas Solar Other

Test Report

- | | | |
|--|---|---|
| <input type="checkbox"/> Earthing System Integrity | <input type="checkbox"/> Insulation Resistance | <input type="checkbox"/> Polarity |
| <input type="checkbox"/> Correct Circuit Connections | <input type="checkbox"/> Residual Current Device Operation | <input type="checkbox"/> Stand Alone Power System |
| <input type="checkbox"/> Visual Check that installation is suitable for connection to supply | <input type="checkbox"/> Protective devices other than RCD's. | <input type="checkbox"/> Neutral System Integrity |

Contractor Confirmation

I confirm that I have carried out the above tests and visually checked the installation work described in this certificate and the premise listed is ready for reconnection to the Essential Energy network.

Contractor Name

Contractor Licence number

Contractor Signature

Date

After your premise has been visually inspected and tested by a qualified electrician and is ready for connection, please contact a suitably Authorised Level 2 Service Provider (ASP) (your Electrical Contractor may also be an ASP) to reconnect your supply in the first instance. ASPs can be found by searching on <https://energysaver.nsw.gov.au/households/you-and-energy-providers/installing-or-altering-your-electricity-service>. If you cannot contact an ASP please call Essential Energy on 13 20 80 to discuss options.

Accredited Service Provider Level 2

- Accredited Service Providers must be suitably Authorised Level 2 Service Providers and be authorised by Essential Energy to reconnect customers supplies.

Service Test Report
