PREAMBLE

This contract is about the services which cover connection of your *premises* to our distribution system, and *supply services* for the *premises*. These services are called “*customer connection services*”.

In addition to this contract, we are required to comply with *energy laws* and other consumer laws in our dealings with you.

You also have a separate contract with your *retailer* dealing with the sale of *energy* to the *premises*.

More information about this contract and other matters is on our website:

www.essentialenergy.com.au

1. THE PARTIES

This contract is between:

Essential Energy (ABN 37 428 185 226 - a statutory state-owned corporation incorporated under the Energy Services Corporation Act 1995 (NSW)) having the contact details as follows

Address: Essential Energy, PO Box 5730, Port Macquarie NSW 2444;

Phone: 13 23 91, who provides you with *customer connection services* at the *premises* (in this contract referred to as “we”, “our” or “us”); and

You, the *customer* to whom this contract applies (in this contract referred to as “you” or “your”).

2. DEFINITIONS AND INTERPRETATION

1. Capitalised or italicised terms used in this contract have the same meanings as they have in the *National Energy Retail Law* and the *National Energy Retail Rules* (“the *Rules*”). However, for ease of reference, a simplified explanation of some terms is given at the end of this contract.
2. Where the simplified explanations in Schedule 1 differ from the definitions in the *National Energy Retail Law* and the *Rules*, the definitions in the *National Energy Retail Law* and the *Rules* prevail.

3. DO THESE TERMS AND CONDITIONS APPLY TO YOU?

3.1 These are our terms and conditions

This contract sets out the terms and conditions for the *standard connection contract* for *customers* under the *National Energy Retail Law* and the *Rules*.

3.2 Does this contract apply to you?

This contract applies to you if your *premises* are connected to our distribution system, and you do not have another customer connection contract with us for those *premises*.

3.3 What if I need a new connection?

If you require a new connection or an alteration to your existing connection we will provide you with a connection offer in accordance with either the *National Electricity Rules* (for an electricity connection) or the *National Gas*

Rules (for a gas connection). That offer will contain terms and conditions relevant to the connection, which will form additional terms and conditions to this contract if you agree to the connection offer.

3.4 Electricity or gas

Standard connection contracts apply to electricity and gas, but some terms are expressed to apply only to one or the other. Our distribution system is an electricity distribution system.

4. WHAT IS THE TERM OF THIS CONTRACT?

4.1 When does this contract start?

If your *premises* are connected to our distribution system, this contract starts on the date when you start to use *supply services* at those *premises*, for example by taking a supply of *energy*.

4.2 When does this contract end?

- (a) This contract ends:
- (i) if your *retailer* notifies us that the *premises* are to be disconnected (a 'termination notice')—subject to paragraph (b), on the date we disconnect the *premises* (even if you have vacated the *premises* earlier); or
 - (ii) if you start receiving *supply services* for the *premises* under a different customer connection contract—on the date that contract starts; or
 - (iii) if a different *customer* starts receiving *supply services* for the *premises*—on the date the connection contract of that *customer* starts;
 - (iv) if we both agree to a date to end the contract – on the date that is agreed; or
 - (v) 10 *business days* after we disconnect the *premises* under the *Rules*, if you have not within that period asked your *retailer* to reconnect the *premises* and met the requirements in the *Rules* for reconnection.
- (b) If your *retailer* gives us a termination notice but you do not give safe and unhindered access to your *premises* to conduct a final meter reading (where relevant), this contract will not end under paragraph (a)(i) until a final meter reading is carried out.
- (c) Rights and obligations accrued before the end of this contract continue despite the end of this contract.

5. SCOPE OF THIS CONTRACT

5.1 What is covered by this contract?

- (a) Under this contract we agree to provide *customer connection services* at the *premises*. We also agree to meet other obligations set out in this contract and to comply with the *energy laws*.
- (b) Charges for *customer connection services* will be billed under your contract with your *retailer*.

5.2 Sale of energy not covered by this contract

This contract does not cover the sale of *energy*. This is the role of your *retailer*.

5.3 Services and your connection point

- (a) We must provide, install and maintain equipment for the provision of *customer connection services* at your *premises* safely and in accordance with the *energy laws*.
- (b) Our obligations extend up to the *connection point* where *energy* is to be supplied to the *premises* (as defined by us) and not beyond.

5.4 Guaranteed service levels

- (a) If you are a *small customer*, we are required under the laws of New South Wales to meet certain guaranteed service levels. These requirements are set out in Schedule 2. We may also be required to pay you compensation if we do not meet the reliability of supply standards prescribed by our licence.

If we do not meet a relevant guaranteed service level and you are entitled to a payment under those laws, we will make a payment to you in accordance with the relevant laws.
- (b) Nothing in this contract limits our obligations to make payments in accordance with the applicable *GSL scheme*.

6. YOUR GENERAL OBLIGATIONS

- (c) inform us of any proposed change that you are aware of in plant or equipment, including metering equipment, or any change to the capacity or operation of connected plant or equipment that may affect the quality, reliability, safety or metering of supply for the *premises* or the *premises* of any other person; and
- (d) inform either your *retailer* or us of any permanent material change to the *energy* load or pattern of usage at the *premises*.

You must comply with:

- (a) the *energy laws* relating to the provision of *customer connection services* we provide for your *premises* under this contract; and

 - (i) register the *premises* with your *retailer* or with us; and
 - (ii) provide *medical confirmation* for the *premises*.
- (b) Subject to satisfying the requirements in the *Rules*, your *premises* may cease to be registered as having life support equipment if *medical confirmation* is not provided to us or your *retailer*.
- (c) You must tell us or your *retailer* if the life support equipment is no longer required at the *premises*.
- (d) If you tell us that a person living or intending to live at your *premises* requires life support equipment, we must give you:
 - (i) at least 50 *business days* to provide *medical confirmation* for the *premises*; and

 - (iv) information to assist you to prepare a plan of action in case of an *unplanned interruption*; and
 - (v) *emergency* telephone contact numbers.

6.5 Obligations if you are not an owner

If you cannot meet an obligation relating to your *premises* under this contract because you are not the owner, you will not be in breach of the obligation if you take all reasonable steps to ensure that the owner or other person responsible for the *premises* fulfils the obligation.

6.6 Small generators including solar panels

- (a) If you have a *small generator* connected to our distribution system at the *premises*, you must comply with the applicable standards in operating and maintaining the generator when you use *supply services* under this contract. We publish information about these standards and other matters relating to *small generator* connections as required by the *Rules*. The information is available on our website or you may contact us to request a copy.
