Be a Safety Star Cables and Ladders

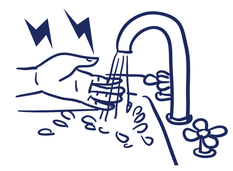
STAY CLEAR
WHEN POWERLINES ARE NEAR

PLAY IT SAFE!

ELECTRICITY SAFETY

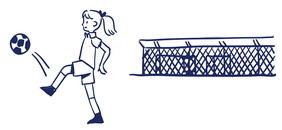
Don't be a stranger to electrical danger. Use appliances safely and correctly.

Felt a zap from a tap or appliance? Keep away and tell an adult to report it.



Spot a fallen powerline? Keep at least 8 metres away and tell an adult.

Electrical equipment and enclosures are no go zones, keep well away!



Play it safe! Stay clear when powerlines are near.

Storms can be dangerous! Always seek shelter and play indoors.

Solar energy, wind, hydropower and community batteries are great for our environment, but are no go zones for you.

Essential Energy
