

1

Stay in the vehicle.
Call 000 immediately.

2

If there's an immediate danger, like fire, and evacuation is ABSOLUTELY necessary, assess your escape route & check for fallen powerlines.

3

Exit the vehicle by jumping - make sure to land with **both feet together.**

4

When jumping, **don't touch the vehicle & the ground at the same time.**

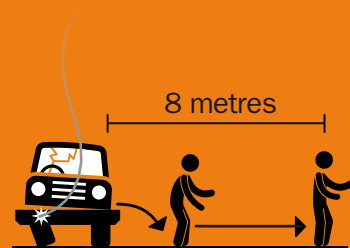

5

Once you've landed with both feet together (be careful not to stumble or fall), shuffle with your feet together away from the vehicle.

6

Move in this way until you are at least 8 metres away from the vehicle. **Do not go back.**

WHAT TO DO IF YOUR VEHICLE BRINGS DOWN POWERLINES
